SYLLABUS

3Flex 3500 Advanced Training

INSTRUCTIONAL GOALS

This course introduces students to advanced theory of the 3Flex 3500 for surface area, porosity analysis, and dynamic chemisorption.

NEEDS AND RESOURCES

Required Background
To successfully complete this course, you must:

- Have some minimal exposure to Physiosorption Theory.

Additional Print Resources
The following publications will also be provided:

- Related Lectures, Application Notes and Technical Tips.

Online Resources
Additional information can be found at:

- [www.micro.edu](http://www.micro.edu)
## COURSE SCHEDULE

### Day 1

<table>
<thead>
<tr>
<th>Session</th>
<th>Room</th>

POLICIES AND PROCEDURES

General Rules:
Attendance to all scheduled lectures and labs is very important due to the length of the course. Please make every attempt possible to avoid tardiness. If you do come in late, please enter through the rear door of the classroom so as to not disrupt or distract your fellow students. If you are unable to attend a day or part of a day due to emergency, please notify the MLC Training Coordinator immediately.

Remember, you and/or your company have a business need for you to attend and complete this course to insure that you are getting the most out of your/company’s investment in your Micromeritics instrument.

Grading Policies:
You will be periodically evaluated throughout the course during oral discussions and demonstrations. Please be prepared to answer questions about the previous lessons content. A student assessment checklist will be completed by the instructor to verify that course objectives are met by each student.

Grading Scale:
There is no grading scale for this course and you will not fail. Again, you and/or your company have a business need for you to attend and complete this course to insure that you are getting the most out of your/company’s investment in your Micromeritics instrument.

ADDITIONAL INFORMATION

Lunch will be provided by Micromeritics. Please inform the MLC Training Coordinator of any special dietary needs.
